

Draft Wicklow Town - Rathnew LAP Submission - Report

Who are you:	Private Individual, Group
Name:	Marian Nelligan re Wicklow Active Retirement
Reference:	DWTRLAP-170415
Submission Made	October 23, 2024 5:43 PM

Topic

Economic Development

Submission

Getting residents from the housing estates on the outskirts of Wicklow Town into the centre of town by public transport to enable access to local shops hence economic growth. A local HOP ON HOP OFF Bus service is what is needed.

Topic

Waterfront Zone Strategy (inc. Murrrough south, harbour & port)

Submission

To have serviced public toilet facilities at the port and Harbour that are available throughout the day. Also to construct proper Engineered Coastal Erosion Protection put in place URGENTLY before its way too late. And to put a proper Hard-Core Path going from the railway entry to the Murrrough going towards Kiloughter.

Topic

Retail /Opportunity Sites

Submission

The vacant and derelict sites in Wicklow Town should be transformed into working retail premises with accommodation overhead for Residential Renting
If ownership of these premises cannot be located after a reasonable period of time the Council should put a CLAIMING ORDER ON THEM and Repose them.. this would lead to solving the housing problems and bring NEW ACTIVE LIFE to Wicklow Town.

Topic

Transport Assessment / Transportation Strategy Map

Submission

A HOP ON HOP OFF BUS should be provided quickly and urgently for the North Side of Wicklow Town/Rathnew so that all the NEW HOUSING ESTATES being built have access to the Centre of Wicklow Town. This would be a huge step forward to lowering EMISSIONS that the Council and Green Party Government go on so much about. How can all this planning be granted without proper FACILITIES and INFRASTRUCTURE being put in place by our Local Councillors and Engineers.
