In my opinion the murrough and the lakes up as far as bird watch ireland connects Wicklow with rathnew and Kilcoole and should be protected for future generations as a nature reserve the council should invest in A boardwalk and mown pathways it has many different kinds of habitats consisting of raised bog that provides a mosaic of peat ramparts, trenches, pools and drains interspersed with grassland, trees and hedgerows.A board walk connecting up as far as bird watch ireland would be brilliant to have such a bio diverse area so close to A town is incredible one of Ireland's Crown Jewels and is massively underrated and undervalued by the Wicklow County Council
