Topic

Community Development (incl. sports facilities & schools, etc.)

Submission

Please designate sufficient land in Blessington to accommodate a 400 metre track along with associated facilities. Athletics can provide a vital solid foundation for children for future healthy lives and give them the building blocks that can be used in any other sports also. West Wicklow is very under resourced in athletics facilities and having a designated area on which to build future facilities would be a huge help to local groups such as lakeside community games, lakeshore striders, community walking groups and would help revive a youth running club such as Blessington Valley. Facilities would be beneficial to all communities around the lake.
