Topic

Residential Development

Submission

There is currently a huge estate being built on the edge of Wicklow Town which is great to see insofar of more footfall for retailers, pub, cafes. That said, I feel no more housing estates should be build in or around the town, as there will be way too much traffic to contend with and massive pressure on schools, sewage outlets and medical facilities i.e. doctors.

Topic

Waterfront Zone Strategy (inc. Murrough south, harbour & port)

Submission

The delay in the repairs to The Murrough is a scandal. It is an area that needs to be repaired, and saved, for obvious environmental reasons, the railway line and for locals, who use this area for exercise daily.

Topic

Infrastructure (inc. Infrastructure Delivery Schedule)

Submission

A mid-morning train is needed from Wicklow Town for those who do not work, need to travel to Dublin for hospital appointments for example and for those who cannot drive. We are being asked/encouraged to try not to use cars and support public transport, but using buses is not the only solution for those needing to travel to/from Dublin.
