The following Letters from the Local Government Board for Ireland or others, relating to Sanitary Matters, were read, and directions given thereon as follows:-

Read Lester Bater the 21th motant from the hove for the man informing the Snurtians that they have received a complaint from Major Duttenham that the Grantians have made default Kilpedder. The Ly Band referred the matter to their Met Insperto Si Stafford, who reputs that the Guardians have taken tempinary measures & prevent the pollution of the river pending the consideration of plans for the Dewerage of the Distort. The Insperto is of opinion that the present -temporary annugement should be discontinued as soon as purible, as it is not a contracting one, and in the event of Exceptionally heavy rains or care, : lennen in funping there wind be danger of the tank arenfliving and polluting the stream. The LG Born miderstand that the fund: Consider the plans now before them are too Expensive but as it is evidently a matter of much importance made as Early as possible for dealing with the serierage of the district, the Snarkians would do well to Itain further advice as to whether an equally exertive but less costs plan cumit le suggester. Order - Mr. Price C.E. has been requested to Jumito plans.

New Letter Dates the 18th motant fran Mr. Frank Brooke DR agent to Carl Fitnillion stating that he has made a careful house to have inspertion (I in many cases a personal one) made of the Deveral cottage tenements reported on by D'ayan MOTY. and in no case has he found so deployable a state of things to exist as that represented in the report. in which it is stated that "In the sur on the top of the fair green each time has a Prestye built right of against it, this anangement admits of the dewage matter to percolate through the walls" there are six of these cottages athich have no pregeries at all and with the exception of Mr Kenner, all had their yours fairly clean and no no case was any sewage matter percolating through the walls, and how enquiry he two informet it had never done or. no does he see how it could, as there is a fall from the houses ontwards to an 18 inch stone chain which runs through all the yours. This drain wond be more neefer if a sufficient suffic of water could be that for flushing it, but as there is no such suffic he purposes making arrangement to have it plushed accasional with the rain or surface water from the other stow. with the ex= the drain mentioned he sees no other depents culling to metiate attention. Get - Arthunderge the receipt of Mr. Brokes atter and request him to remer any missine that may wist with as little delay as pissible. Read Letter from Mr. J. F. Wans 550, arklew recommending that a new Dowengerry can't be got for use in the town as the one at present used is quite mismitable for the purpose of conving liquid
