Topic

Overall Vision and Strategy of LAP

Submission

I am born and bred in Wicklow Town and love the place but am growing increasingly worried about the over population that is happening for the current facilities and services. My son's school is already over capacity and can't cope or give the support needed to children who need it most. It's getting harder to get a doctor's appointment and as a person in remission from cancer last year this scares me about the future. I fear our son who has high functioning Autism might not get a place in a secondary school or the support he needs to help him succeed due to more and more people moving to Wicklow and not enough facilities to help the people currently here let alone new residents. Please stop a disaster from happening and slow things down before it gets out of control and our beautiful town is destroyed.

The Murrough is on its knees and soon will not be there anymore when costal erosion measures should have been in place 20 years ago. Please improve and save what we have already and make it a great place to live again.
