## Topic

Community Development (incl. sports facilities & schools, etc.)

### Submission

Chronic need for athletic facilities and a swimming pool. Such large growing town and the only thing available at the moment is a warm out playground near Aldi, bumpy footpaths, and minimal lighting from a safety perspective. Think of the health and the future of our youth, please invest appropriately to help develop the community.

## Topic

Local Transport Assessment / Transport Strategy Map

### Submission

Lack of transport, the 65 bus is a shambles, it's such a minimal service. If we have Dublin bus then surely we should be treated as an extremely large suburb and have appropriate transport facilities. Surely the frequency should be dramatically improved. The crooking impact has led to such limited capacity, the need to drive instead of bus is evident with traffic and it's such a shame being on a route!
