Overall Vision and Strategy of LAP

Submission

Major improved needed on Rathnew village & Wicklow town.

I have recently moved to Rathnew from Bray. We are grateful to have our home in Rathnew village however the infrastructure needs a major upgrade.

The lack of places in schools/crèches is totally unacceptable leaving people with no choice but to be out of work to look after their children.

Those who work in Bray, Shankill or towards the City Centre and have to travel along the N11 are nearly worse off. Travelling well over an hour and a half or two hours for a journey that should be 25/30 minutes and that's without bad weather or a collision.

Public transport is contributing to this.

There has been such a large spike in building and thus population growth, it seems all those in the local councils haven't considered that the infrastructure will also need to grow to sustain such a population.
