Transport Assessment / Transportation Strategy Map

## Submission

Dears, having lived here for 2 years now I can not stress on the importance of having a minimum of a bus stop connecting wicklow town centre and Rathnew village through Broomhall Ct. Kids are walking distances just to get to school causing danger to them and high traffic. A bus stop that connects the area with multiple other routes would be grand. It is safer to the kids, will reduce traffic, and will serve all the new developments in the area.
